SUMMARY

Data and MIS Analyst with 1.4+ years of professional experience delivering end-to-end analytics and automation solutions — from raw data collection and cleaning to real-time dashboards, automated reporting, and stakeholder-ready insights. Currently develop and maintain MIS systems for multi-outlet operations, combining SQL, Power BI, Advanced Excel, Python, and Google Apps Script to automate reporting and improve operational decision-making. Proven track record of building 10+ dashboards, automating recurring reports, and maintaining 95%+ reporting accuracy across hospitality, healthcare, and IT services environments.

CORE COMPETENCIES

Business Intelligence

Power BI · DAX · KPI dashboards · MIS reporting · Trend analysis

SQL & Databases

JOINS · Subqueries · Query optimization · Large DBs

Data Visualization

Interactive dashboards · Charts · Drill-throughs · Slicers

Python Analytics

Pandas · NumPy · Matplotlib · Automation

Statistical Analysis

Descriptive stats · Regression · Hypothesis testing · Forecasting

Google Workspace & Automation

Google Sheets · Apps Script · AppSheet · Workflow & AI Automation

EXPERIENCE

MIS Analyst — Operations & Automation

May 2026 – Present

38 Barracks Hotel & Restaurant & Bar (Multi-Outlet) · Full-time | New Delhi, India · On-site

- ❖ **MIS Reporting & Analytics:** Collect, clean, and analyze daily, weekly, monthly, and yearly operational data across multiple outlets to support strategic decision-making.
- ❖ **Dashboard Development:** Built and maintain 10+ real-time MIS dashboards using Advanced Excel, Google Sheets, SQL, and Power BI to track KPIs and operational performance.
- ❖ **Automation & Workflow Optimization:** Design and deploy 10+ Google Apps Script automations and Google App Sheet applications, streamlining recurring business processes and reducing manual effort.
- ❖ **Reporting Automation:** Automate 4+ recurring management reports, improving reporting consistency and turnaround time.
- ❖ **Inventory Management:** Develop and maintain an Inventory Management System to track stock movement, purchases, consumption, and closing balances.
- ❖ **Cross-Functional Collaboration:** Collaborate with Operations, Finance, and HR to gather requirements and deliver tailored analytical solutions.
- ❖ **Data Quality & Governance:** Maintain 95%+ reporting accuracy through structured data validation, standardization, and quality control.

Data Analyst — Analytics & Reporting

Dec 2025 – May 2026

Brainers Commercial Pvt Ltd · Full-time

Ghaziabad, Uttar Pradesh · On-site

- ❖ **Data Management:** Developed and maintained structured dataset repositories covering “50,000+” records per project, ensuring data quality for operational reporting and analytical decision-making.
- ❖ **Power BI:** Built interactive Power BI dashboards with KPI cards, slicers, trend lines, and drill-throughs — delivering weekly/monthly performance reports to management and stakeholder teams.
- ❖ **Data Quality:** Performed end-to-end data cleaning across 10+ structured datasets using Python (Pandas, NumPy), SQL, and Advanced Excel — handling missing values, duplicates, outliers, and inconsistencies.
- ❖ **Statistical Analysis:** Conducted statistical analysis including descriptive stats, regression, correlation, and hypothesis testing to generate evidence-based business insights for operational decisions.

- ❖ **Automation:** Automated repetitive reporting workflows using Python scripts and Excel Power Query, reducing manual processing time and improving team efficiency significantly.
- ❖ **Collaboration:** Collaborated with 5-member cross-functional team to design standardized reporting frameworks, improving data consistency and turnaround time for business reporting.

Data Analyst

CETPA Infotech Pvt. Ltd. · Internship

Jul 2025 – Dec 2025

Noida, Uttar Pradesh · On-site

- ❖ Designed and optimized SQL queries (**JOINS**, **subqueries**, **aggregations**) for large relational databases, delivering actionable business insights for operational and marketing teams.
- ❖ Built interactive Power BI dashboards with **KPIs**, **slicers**, **DAX measures**, and drill-throughs for revenue, sales, and customer performance tracking.
- ❖ Performed EDA using Python (Pandas, Matplotlib) and Excel (**Pivot Tables**, **VLOOKUP/XLOOKUP**, **Power Query**) — automating reporting workflows to reduce manual effort.

KEY PROJECTS

38 Barracks – Real-Time Sales MIS & BI Dashboard | [Google Sheets](#) | [Apps Script](#) | [HTML](#) | [CSS](#) | [JavaScript](#) | [Excel](#)

Developed an interactive Sales MIS Dashboard using Google Sheets, Google Apps Script, HTML, CSS, JavaScript and Chart.js. Automated KPI tracking for Sales, Targets, Variance, Pax, Tables, APC, Google/Zomato Reviews and Hookah Performance.

Real Estate Sales Analytics Dashboard (2001–2020) | [Power BI](#) | [Power Query](#) | [SQL](#) | [Excel](#)

20 years of sales data across 169 cities. KPI cards, time-series trends, property-type performance, and regional distribution analysis delivering market insights for investment decisions.

Uniform Inventory Management & MIS Dashboard Automation| [Google Sheets](#) | [Apps Script](#) | [HTML](#) | [CSS](#) | [JavaScript](#) | [Excel](#)

Developed a real-time **Uniform Inventory MIS Dashboard** using Google Sheets, Google Apps Script, HTML, CSS and JavaScript, automating stock, purchase, issue, return and damage tracking. Built interactive KPI dashboards with **low-stock alerts**, **inventory valuation**, **consumption analysis**, **filters** and **dynamic uniform image integration** for efficient inventory monitoring and decision-making.

TECHNICAL SKILLS

Data & BI	SQL (JOINS · CTEs · Subqueries · Aggregations), Power BI (DAX · Power Query · Data Modeling · Slicers), Advanced Excel (Pivot · VLOOKUP · Power Query), ETL
Python	Pandas, NumPy, Matplotlib — Data Cleaning, EDA, Automation, Scripting, Visualization
Analytics	Statistical Analysis, Regression, Hypothesis Testing, Dashboard Development, KPI Tracking, MIS Reporting, Trend Analysis, Automated Reporting
AI Automation	Google Sheets, Google Apps Script, Google AppSheet, Google Forms, Workflow Automation, AI Tools
Domain	Business Intelligence, Operational Analytics, IT Consulting, Healthcare Industry, Performance Reporting, Cross-Industry Data Analytics
Soft Skills	Analytical Thinking, Problem-Solving, Stakeholder Communication, Attention to Detail, Time Management, Cross-functional Collaboration

EDUCATION

Bachelor of Technology — Information Technology

JIS College of Engineering

Jun 2020 – Jun 2024

CGPA: 7.50

Coursework: Python, Statistics & Probability, SQL & Database Design, Advanced Excel, Power BI

Higher Secondary — Science (PCM)

Purnea College, Purnia

Jun 2018 – Jun 2020

Grade: 73%

CERTIFICATIONS

Data Analytics Using Power BI —
